

AS114206 HD in Rehabilitation Services

AS114206J 復康服務高級文憑

HHS3190M Human Physiology and Functional Anatomy for Rehabilitation Services

HHS3190MJ 復康服務之人體生理學及功能性解剖學

Semester 1 (26-27) Scheme of Module Activity

第一學期（26-27）單元活動計劃

Outline 大綱:

- Module Intended Learning Outcomes (MILO) 單元預期學習成果.
- Module Assessment Plan 單元評核計劃
- Lesson Plan 課堂計劃

Module Intended Learning Outcomes (MILO) 單元預期學習成果:

On completion of this module, learners are expected to be able to:

1. Describe the mechanism of human body in maintaining a normal homeostasis or accomplishing a particular task essential for life with reference to the functions of various body systems regarding the rehabilitation industry.
2. Explain the consequences of different various physiological disorders with appropriate mechanisms in account of rehabilitation aspects.
3. Identify, classify and describe the musculoskeletal structures of the human body in standard terminologies in rehabilitation perspective.
4. Illustrate the interaction between responsible musculoskeletal structures of human body involving in the complex functional movements in rehabilitation perspective.
5. Apply the essential concepts of human physiology and functional anatomy regarding the rehabilitation perspective.

完成本單元後, 學生預期能夠學習 :

1. 描述人體在維持正常穩態或完成生命所需特定任務的機制, 並參考各個身體系統在復康行業中的功能。
2. 從復康的角度, 以合適之機制解釋不同生理疾病的後果。
3. 從復康的角度, 及使用標準術語識別、分類並描述人體的肌肉骨骼結構。
4. 從復康的角度, 說明人體中負責複雜功能運動的肌肉骨骼結構之間的相互作用。
5. 從復康的角度, 應用有關人體生理學和功能解剖學的基本概念。

Module Assessment Plan 單元評核計劃:

Assessment Part (Proportion) 評核部分 (佔比)	Assessment Items (Proportion) 評核項目 (佔比)	MILO	Assessment Schedule 評核時間
Continuous Assessment (CA) 持續評核 (50%)	(1) CA Physiology Assignment (10%) CA 生理學作業 (10%)	1, 2	Semester 2 第二學期
	(2) CA Anatomy Assignment (10%) CA 解剖學作業 (10%)	3, 4	To be announced 待公佈
	(3) CA Physiology Tutorial Exercises (15%) CA 生理學導修課練習 (15%)	1, 2	Semester 1 第一學期
	(4) CA Anatomy Quiz (5%) CA 解剖學小測 (5%)	3, 4	To be announced 待公佈
	(5) CA Test (10%) CA 測驗 (10%)	1, 2, 3, 4	Semester 1 第一學期
End-of-Module Assessment (EA) 單元總評核 (50%)	(6) EA Test (20%) EA 測驗 (20%)	1, 2, 3, 4	Semester 2 (Early May) 第二學期 (5 月初)
	(7) EA Case Study (30%) EA 個案研習 (30%)	1, 2, 3, 4, 5	Semester 2 (Early May) 第二學期 (5 月初)

In order to pass this module, a student must:

- (a) attain **at least 70% attendance** at the end of this module in semester 2; **and**
- (b) pass End-of-Module Assessment (EA) by attaining **at least 40% of overall EA mark** in semester 2; **and**
- (c) attain **at least 40% of overall module mark**.

為了通過本單元，學生必須：

- (a) 在第二學期本單元結束時，**出席率至少達到 70%**；及
- (b) 通過單元總評核（EA）在第二學期達到**至少 40% 的 EA 總分**；及
- (c) 達到**至少 40% 的單元總分**。

Assessment items will be conducted in semester 1 and 2.

評核項目將在第一學期和第二學期進行。

Assessments of Physiology Part 生理學部份之評核:

- **CA Physiology Tutorial Exercises** will be explained and conducted in **semester 1 tutorial lessons**. Student must complete and submit the exercises to teacher within designated period. Late submission before disclosure of the answers will lead to mark deduction. Late submission after disclosure of the answers is not allowed.
CA 生理學導修課練習將在**第 1 學期的導修課**中解釋和進行，學生必須在指定時間內完成練習並提交給老師。在披露答案之前，遲交將導致扣分，不接受在披露答案後提交。

- **CA Physiology Assignment** will be explained and conducted in **semester 2 tutorial lessons**. Student must complete and submit the assignment to teacher within designated period. Late submission before disclosure of the answers will lead to mark deduction. Late submission after disclosure of the answers is not allowed.

CA 生理學作業將在**第 2 學期的導修課**中解釋和進行，學生必須在指定時間內完成作業並提交給老師。在披露答案之前，遲交將導致扣分，不接受在披露答案後提交。

Assessments of Anatomy Part 解剖學部份之評核:

- Further details will be announced by teachers. 更多細節將由老師公佈。

Physiology and Anatomy Assessments 生理學及解剖學共同評核:

- **CA test** will be held in **exam period of semester 1**. This test covered both physiology and anatomy content. **CA 測驗**在**第一學期的考試週期間**舉行，該測驗涵蓋了生理學和解剖學內容。
 - **EA assessment items**, which include **1 closed-book written test** and **1 opened-book case study assessment**, will be conducted in **examination period of semester 2**. EA assessments will cover both physiology and anatomy content.
- 單元總評核**包括 **1 項閉卷測驗**及 **1 項開卷個案研習**，將於**第二學期的考試週期間**進行，單元總評核將涵蓋生理學和解剖學內容。

Note 注意:

Application of Low Attendance Approval: Teacher will not record attendance for student. Student is responsible for his/her own attendance record. For any student taking leave with valid reason and failing to attain minimum attendance requirement, he/she should apply for low attendance approval from campus principals by submitting true copy of supporting document (E.g. Sick Leave Certificate*).

申請低出席率許可: 教師不會代為記錄學生的出席情況，學生必須對自己的出席記錄負責，任何學生因正當理由請假而未能達到最低出席率要求，應提交證明文件（例如病假證明書[†]）的正本向校長申請低出席率許可。

Application of Re-Assessment: For any student absent in CA Test or EA Assessments with valid reason, he/she should apply for re-assessment by submitting true copy of supporting document (E.g. Sick Leave Certificate) to teacher within 3 working days. If the application is approved, the re-assessment of CA will be conducted as soon as possible and EA re-assessment will be conducted during the next available round of the applied assessment.

申請補考: 任何學生因正當理由缺席 CA 測驗或單元總評核，應在 3 個工作日內向老師提交證明文件（例如病假證明書）的正本申請補考，如申請獲批，CA 補考將儘快安排，單元總評核之補考將在下一輪的單元總評核中進行。

* valid medical certificate issued from a Hong Kong registered doctor or Hong Kong registered Chinese medicine practitioner

[†] 由香港註冊西醫或香港註冊中醫簽署發出的有效醫生證明書

HHS3190M Lesson Plan 課堂計劃:

The following lessons will be conducted in semester 1. Student should download and print lecture notes from Moodle before lessons and attend all scheduled lessons on time.
 以下課堂將在第一學期進行，學生應在上課前從 Moodle 下載並列印講義，並準時上課。

Week 週	Lecture 講授課	Physiology Tutorial 生理學導修課			Anatomy Workshop 解剖學工作坊			Content 內容
		1A (Rm 352)	1B (Rm 352)	1C (Rm352)	1A (Rm 352)	1B (Rm 352)	1C (Rm352)	
1	02/09/26 1530-1730	---	---	---	---	---	---	Physiology Lecture: L1
